

LIVE TESTING SCRIPT — www.team4job.com

Version: Production v1.0 | **Date:** April 4, 2026

Target: <https://www.team4job.com> (Live Production)

Tester Tools: Browser DevTools (F12), Network Tab, Console Tab, Lighthouse

TABLE OF CONTENTS

- [1. Pre-Test Setup & Test Accounts](#)
- [2. Section A: Public Pages & Landing](#)
- [3. Section B: Authentication & Registration](#)
- [4. Section C: Client \(Job Giver\) Full Flow](#)
- [5. Section D: Professional \(Installer\) Full Flow](#)
- [6. Section E: Admin Dashboard Full Flow](#)
- [7. Section F: Complete Transaction Cycle \(10-Phase\)](#)
- [8. Section G: Edge Cases & Rare Scenarios](#)
- [9. Section H: Performance & Data Fetch Audit](#)
- [10. Section I: Data Sync Audit by Role](#)
- [11. Section J: Responsiveness & Device Testing](#)
- [12. Section K: Security & Accessibility](#)
- [13. Master Sign-Off Checklist](#)

1. PRE-TEST SETUP & TEST ACCOUNTS

Environment

Item	Value
Live URL	https://www.team4job.com
DevTools	Open F12 → Console + Network tabs at all times
Network Throttle	Use Chrome DevTools → Network → preset slow 3G for load tests
Browser	Chrome (primary), Firefox, Safari (secondary)
Mobile Emulation	Chrome DevTools → Device Toolbar → iPhone 12, Pixel 5, Galaxy S20

Test Accounts

Role	Email	Password	Notes
Client (Primary)	rajesh.client@team4job.com	TestUser_2026!	Standard homeowner
Client (Business)	priya.client@team4job.com	TestUser_2026!	Business power user
Client (New/No Jobs)	ravi.newclient@team4job.com	TestUser_2026!	Fresh account
Professional (Silver)	amit.pro@team4job.com	TestUser_2026!	Verified, KYC done
Professional (Gold)	suresh.pro@team4job.com	TestUser_2026!	Veteran installer

Professional (New/Unverified)	neha.pro@team4job.com	TestUser_2026!	No KYC, no skills
Professional (Suspended)	manoj.suspended@team4job.com	TestUser_2026!	Banned account
Dual Role	anita.dual@team4job.com	TestUser_2026!	Both Client + Pro
Admin	vikasakankshasharma@gmail.com	Admin_Pass2026!	Full admin access
Support	kavita.support@team4job.com	TestUser_2026!	Support team role

Test Payment Data

Type	Card Number	CVV	Expiry
✔ Success	4111 1111 1111 1111	123	12/25
✗ Declined	4000 0000 0000 0002	123	12/25
Aadhar KYC	999999990019	OTP: 123456	—

SECTION A: PUBLIC PAGES & LANDING

A1 — Homepage Load & Visual Check

#	Test	Steps	Expected	Status
A1.1	Homepage loads	Navigate to https://www.team4job.com	Page loads in <3s. No console errors	☐
A1.2	Hero section visible	Check above-the-fold content	H1 heading, CTA buttons, hero image visible	☐
A1.3	Navigation bar	Inspect top nav	Logo, Login, Sign Up links visible & clickable	☐
A1.4	No JS errors	Check Console tab	0 critical errors (ignore favicon 404, analytics)	☐
A1.5	No failed API calls	Check Network tab (filter: Failed)	All API calls return 200/304	☐
A1.6	Footer is present	Scroll to bottom	Footer with links, copyright, social icons visible	☐
A1.7	All footer links work	Click each footer link	Links navigate correctly, no 404	☐
A1.8	SEO meta tags	DevTools → Elements → <head>	<title> and <meta description> are present	☐

A2 — Landing Page Features

#	Test	Steps	Expected	Status
---	------	-------	----------	--------

A2.1	CTA "Post a Job"	Click primary CTA	Redirects to /login or /register if not logged in	☐
A2.2	CTA "Find Work"	Click "Find Work" or Pro CTA	Redirects to professional registration / login	☐
A2.3	Features section	Scroll down	Feature cards/icons load with correct text	☐
A2.4	Testimonials	If present, scroll to section	Content visible, no broken images	☐
A2.5	How it works	Scroll to process section	Step-by-step workflow visible (Post → Bid → Pay → Complete)	☐

SECTION B: AUTHENTICATION & REGISTRATION

B1 — Login Validation

#	Test	Steps	Expected	Status
B1.1	Empty form submit	Go to /login, click "Log In" with empty fields	Error: "Email required", "Password required"	☐
B1.2	Invalid email format	Enter not-an-email, any password → Submit	Error: "Please enter a valid email address or 10-digit mobile number"	☐
B1.3	Invalid phone format	Enter 12345, any password → Submit	Inline error on email/phone field	☐
B1.4	Wrong credentials	wrong@email.com / badPass123 → Submit	Toast: "Login Failed" or "Invalid credentials". Stay on /login	☐
B1.5	Multiple failed attempts	Repeat wrong creds 5x	Lockout message or CAPTCHA appears after threshold	☐
B1.6	Forgot Password	Click "Forgot Password" link	Navigates to reset page	☐
B1.7	Forgot Password - valid email	Enter rajesh.client@team4job.com → Submit	Toast: "Reset email sent"	☐
B1.8	Forgot Password - invalid email	Enter garbage@x. → Submit	Error: "Please enter a valid email"	☐
B1.9	Login as Client	rajesh.client@team4job.com / TestUser_2026!	Redirects to /dashboard. Client sidebar visible	☐
B1.10	Login as Professional	amit.pro@team4job.com / TestUser_2026!	Redirects to /dashboard. Pro sidebar visible	☐

B1.11	Login as Admin	vikasakankshasharma@gmail.com / Admin_Pass2026!	Redirects to /dashboard. Admin sidebar visible	☐
B1.12	Login via phone	Enter valid 10-digit phone number + password	Acceptable if phone login supported, else clear error	☐

B2 — Session & Route Protection

#	Test	Steps	Expected	Status
B2.1	Unauthenticated dashboard access	Navigate to /dashboard while logged out	Redirected to /login	☐
B2.2	Unauthenticated job detail	Navigate to /dashboard/jobs/JOB-XXX logged out	Redirected to /login	☐
B2.3	Session persistence on refresh	Login → F5 Refresh	Still on /dashboard, not redirected	☐
B2.4	Session persists new tab	Login → Open new tab → Go to /dashboard	Still authenticated	☐
B2.5	Logout works	Click Logout	Redirected to /login or homepage. Session cleared	☐
B2.6	Post-logout protection	After logout, click browser Back	Returns to /login, not dashboard	☐

B3 — Registration Flow

#	Test	Steps	Expected	Status
B3.1	Registration page loads	Navigate to /register	Form visible with role selection	☐
B3.2	Client registration	Fill all fields as Client → Submit	Account created, redirected to onboarding/dashboard	☐
B3.3	Professional registration	Fill all fields as Professional → Submit	Account created, KYC prompt shown	☐
B3.4	Duplicate email	Use existing rajesh.client@team4job.com	Error: "Email already registered"	☐
B3.5	Password strength	Enter weak password 123	Error: password requirements shown	☐

SECTION C: CLIENT (JOB GIVER) FULL FLOW

C1 — Dashboard Overview

#	Test	Steps	Expected	Status
---	------	-------	----------	--------

C1.1	Dashboard loads	Login as Client → /dashboard	Stats cards, active jobs list, sidebar visible	☐
C1.2	Stats update	Post a job → return to dashboard	"Active Bids", "Jobs Posted" counter increments	☐
C1.3	Navigation links	Click each sidebar item	Correct page loads, active link highlighted	☐
C1.4	Notification bell	Click bell icon	Notifications panel opens, unread count shown	☐
C1.5	Mark notification read	Click a notification	Unread badge decrements	☐

C2 — Post a Job (Wizard)

#	Test	Steps	Expected	Status
C2.1	Navigate to Post Job	Click "Post a Job" button	Navigates to /wizard or /post-job	☐
C2.2	Category selection	Select "Security & Surveillance"	Sub-category options appear. Branch questions load	☐
C2.3	Branch Q&A	Answer all branch questions	Next step unlocked	☐
C2.4	Job title field	Enter Install 4 CCTV Cameras for Retail Shop	Character count shown. Accepted	☐
C2.5	Job description	Enter 100+ char description	Accepted. No truncation	☐
C2.6	Skills field	Enter CCTV Installation, Wiring	Tags created or comma-separated accepted	☐
C2.7	Pincode lookup	Enter 560001 → Wait	Post offices dropdown populates (Bangalore data)	☐
C2.8	Address fields	Fill House, Street, Landmark, Full Address	All fields accept text	☐
C2.9	Budget range	Min: 8000, Max: 12000	Both fields accept values. No error	☐
C2.10	Deadline date	Select a future date (7 days from now)	Date accepted	☐
C2.11	Start date	Select a future datetime (30+ days)	Datetime accepted	☐
C2.12	Verify checkbox	Click "I verify that these details are correct"	Checkbox toggles ON	☐
C2.13	Post Job submit	Click "Post Job" → Confirm dialog → "Confirm & Save"	Job created. Navigates to /dashboard/jobs/JOB-XXX	☐

C2.14	Draft recovery	Start form → Navigate away → Return	"Resume your draft?" dialog appears	☐
C2.15	Discard draft	In draft dialog → Click "Discard"	Fresh form loads	☐
C2.16	Resume draft	In draft dialog → Click "Resume"	Previous data restored	☐
C2.17	Milestone toggle	Toggle "Enable Milestones"	Milestone fields appear (name + %)	☐
C2.18	Add milestones	Add M1: Planning 50%, M2: Install 50%	Two milestones shown. Total = 100%	☐
C2.19	Direct Award toggle	Toggle "Direct Award" → Enter Pro ID	Direct award option enabled	☐

C3 — Posted Jobs Management

#	Test	Steps	Expected	Status
C3.1	View posted jobs	Navigate to /dashboard/posted-jobs	All jobs listed with status badges	☐
C3.2	Job detail view	Click a job	Full detail page loads: title, description, status, bids list	☐
C3.3	Edit job (pre-bid)	On open job → Click "Edit"	Edit form populates with existing data	☐
C3.4	Edit job title	Change title → Save	Updated title appears (refresh to confirm persistence)	☐
C3.5	Cancel job (pre-fund)	Fund job → Click "Cancel Job"	Confirmation dialog → Status = Cancelled. Refund initiated	☐
C3.6	View bid list	On job with bids → Check bids section	Each bid shows Pro name, amount, cover letter	☐
C3.7	Award bid	Click "Send Offer" on a bid	Toast: "Offer Sent". Job status → Pending Acceptance	☐
C3.8	Award over-budget bid	Post job (budget ₹3000). Bid ₹4500. Click "Award"	Warning: "Bid exceeds budget". Option to proceed	☐

C4 — Funding & Escrow

#	Test	Steps	Expected	Status
C4.1	Fund job with valid card	After Pro accepts → Click "Proceed to Payment" → Enter 4111 1111 1111 1111	Payment success toast. Status → In Progress. Start OTP visible	☐

C4.2	Fund with declined card	Enter 4000 0000 0000 0002	Toast: "Payment failed / Declined". Job status unchanged	☐
C4.3	Start OTP visible	Post-funding → Reload page	OTP code visible in Client's job detail panel	☐
C4.4	Milestone funding	Fund milestone job	Breakdown shows per-milestone amounts	☐

C5 — Work Approval & Payment Release

#	Test	Steps	Expected	Status
C5.1	Approve work	After Pro submits work → Click "Approve & Release"	Toast: "Job Approved & Payment Released!". Status → Completed	☐
C5.2	Request revision	After Pro submits → Click "Request Revision"	Reason field prompt. Toast: "Revision Requested". Status stays In Progress	☐
C5.3	Raise dispute	Click "Raise Dispute" → Enter reason	Status → Disputed. Admin notified	☐

C6 — Invoice & Rating

#	Test	Steps	Expected	Status
C6.1	Download Service Invoice	On completed job → Click "Download Invoice"	PDF opens in new tab. Contains "Billed To (Client):", tax details, Team4Job branding	☐
C6.2	Download Platform Receipt	Click "Download Platform Receipt"	PDF/new tab opens with platform fee receipt	☐
C6.3	Submit review	Rate Pro 5 stars → Enter comment → "Submit Review"	Toast: "Review Submitted". Review locked card appears	☐
C6.4	Review persistence	Reload page	Locked review card visible on reload	☐

SECTION D: PROFESSIONAL (INSTALLER) FULL FLOW

D1 — Dashboard Overview

#	Test	Steps	Expected	Status
D1.1	Dashboard loads	Login as Pro → /dashboard	Stats, active bids, earnings widget visible	☐
D1.2	Earnings widget	View wallet/earnings section	Balance shown. Payout option visible	☐

D1.3	My bids list	Navigate to My Bids	All placed bids listed with statuses	☐
D1.4	Browse Jobs	Navigate to /dashboard/jobs	Job listings with search, filter visible	☐

D2 — KYC & Profile Verification

#	Test	Steps	Expected	Status
D2.1	KYC prompt (new user)	Login as neha.pro@team4job.com → Try to bid	Prompt: "Please complete your profile/KYC first"	☐
D2.2	Navigate to KYC	Click "Verify Profile" or /dashboard/verify-professional	Verification form loads	☐
D2.3	Aadhar KYC - valid	Enter 999999990019 → OTP: 123456	KYC accepted. Status → Verified	☐
D2.4	Aadhar KYC - invalid	Enter 0000 0000 0000	Error: "Invalid Aadhar" or "KYC rejected"	☐
D2.5	Upload fake ID (cat image)	Upload non-document image	KYC Status → Rejected	☐
D2.6	Add skills to profile	Navigate to profile → Add skill Networking	Skill saved. Visible on browse listing	☐

D3 — Browse & Bid on Jobs

#	Test	Steps	Expected	Status
D3.1	Browse jobs list loads	Navigate to /dashboard/jobs → "Browse All" tab	Jobs listed with location, budget, skills tags	☐
D3.2	Search filter	Enter search term CCTV	Filtered results matching "CCTV" shown	☐
D3.3	No results search	Enter NonExistentJobXYZ123	"No jobs found matching your criteria" shown	☐
D3.4	Special char search	Enter !@#\$\$%^&*()	Handled gracefully. Empty state shown	☐
D3.5	Far-away job warning	Browse jobs far from your location	Warning banner: "This job is far from your location"	☐
D3.6	Place bid	Click job → Click "Place Bid" → Amount: 7500, Cover Letter → Submit	Toast: "Bid Placed!". Bid appears in My Bids	☐
D3.7	Duplicate bid prevention	Try to bid again on the same job	Button shows "Bid Already Placed" or disabled	☐
D3.8	Self-bid prevention	Login as Client → Browse own posted job	"Place Bid" button NOT visible	☐

D4 — Accepting & Starting Jobs

#	Test	Steps	Expected	Status
D4.1	Receive offer notification	After Client sends offer → Check bell	Notification: "You received a job offer"	☐
D4.2	Accept job offer	On job detail → Click "Accept Job"	Toast: "Job Accepted!". Status → Pending Funding	☐
D4.3	Schedule conflict dialog	Accept job when another job overlaps dates	"Schedule Conflict Warning" dialog. Option: "I Understand, Proceed & Accept"	☐
D4.4	Enter OTP to start	After funding → Enter OTP from Client page → Click "Start"	Toast: "Work Started". Status → In Progress	☐
D4.5	Late start (>24h)	Start job 24h after scheduled start	System logs "Late Start"	☐

D5 — Work Completion

#	Test	Steps	Expected	Status
D5.1	Upload proof image	In completion section → Upload image.png	File name listed. Thumbnail shown	☐
D5.2	Submit for review	Click "Submit for Review"	Toast: "Submitted for Confirmation". Status → Pending Confirmation	☐
D5.3	Variation Order	Click "Add Variation Order" → Amount: 1200, Reason: Extra cables needed	Client notified: "VO Approval Required"	☐
D5.4	Raise dispute (Pro)	Click "Raise Dispute" → Reason: JG asking for extra cameras	Status → Disputed. Admin notified	☐

D6 — Post-Completion

#	Test	Steps	Expected	Status
D6.1	View earnings	After job completed → Check wallet	Earnings = Job Amount - Platform Fee	☐
D6.2	Request payout	Click "Withdraw" or "Request Payout"	Payout form appears. Submit → "Payout Requested"	☐
D6.3	See Client review	After Client submits review → Pro views job	"The other party has already reviewed you" text visible	☐
D6.4	Submit review (Pro)	Rate Client 5 stars → Comment → Submit	Toast confirmation. Both reviews revealed	☐

D6.5	Reviews revealed	Both parties submit reviews	"You Rated Them" and "They Rated You" sections visible	☐
------	------------------	-----------------------------	--	--------------------------

SECTION E: ADMIN DASHBOARD FULL FLOW

E1 — Admin Overview

#	Test	Steps	Expected	Status
E1.1	Admin dashboard loads	Login as Admin → /dashboard	Full admin sidebar visible: Users, Jobs, Financials, Disputes, Audit Log	☐
E1.2	Platform stats	View dashboard home	Total jobs, active users, revenue, disputes counts	☐
E1.3	Audit log	Navigate to Audit Log	All system events listed with timestamps, user IDs, actions	☐

E2 — User Management

#	Test	Steps	Expected	Status
E2.1	Search user by email	Search amit.pro@team4job.com	Correct user record returned with profile, roles, status	☐
E2.2	View user profile	Click user → View profile	Full user data: name, KYC status, job history, wallet	☐
E2.3	Suspend user	Click "Suspend" on manoj.suspended@team4job.com	Status → Suspended. User cannot login	☐
E2.4	Suspended user login	Login as manoj.suspended@team4job.com	Message: "Access Denied – Account Suspended"	☐
E2.5	Reinstate user	Admin un-suspends user	User can login again	☐
E2.6	User report handling	View reported users	Reports listed. Action buttons available	☐

E3 — Job Moderation

#	Test	Steps	Expected	Status
E3.1	View all jobs	Navigate to Jobs section	All jobs listed across all statuses	☐
E3.2	Filter by status	Filter: Disputed	Only disputed jobs shown	☐
E3.3	Edit job title	Click edit on a job → Modify title	Updated title saved	☐
E3.4	Force cancel job	Click "Force Cancel" on an active job	Job cancelled. Refund triggered	☐

E4 — Financial & Dispute Management

#	Test	Steps	Expected	Status
E4.1	View transactions	Navigate to Financials	All transactions with amounts, fees, timestamps	☐
E4.2	Admin refund	Find completed job → Click "Reverse Transaction"	Client balance updated. Status → Refunded	☐
E4.3	View disputes	Navigate to Disputes	All disputed jobs listed with reason, reporter, date	☐
E4.4	Resolve dispute	Click a dispute → Click "Resolve" → Add notes	Dispute closed. Both parties notified	☐
E4.5	Property damage claim	View "Damage Claim" dispute type	Damage workflow visible with required fields	☐

E5 — Analytics & Reports

#	Test	Steps	Expected	Status
E5.1	Analytics dashboard	Navigate to Analytics	Charts: revenue, jobs over time, user growth	☐
E5.2	Date range filter	Change date range to "Last 30 Days"	Charts update to reflect filtered range	☐
E5.3	Export data	Click "Export" button if present	CSV/Excel file downloads	☐

SECTION F: COMPLETE TRANSACTION CYCLE (10-PHASE)

This is the **core E2E flow**. Execute sequentially as written. Use browser DevTools Network tab to monitor all API calls.

ACCOUNTS: Client = rajesh.client@team4job.com | Pro = amit.pro@team4job.com

Phase 1 — Client Posts Job

1. Login as **Client**
2. Navigate to "Post a Job" (/wizard)
3. Select Category: Security & Surveillance → Sub: CCTV / Video Surveillance
4. Answer branch questions (3-4 areas, Both, Commercial, FreshWiring, 1Week, NotNeeded, MobileOnly)
5. Title: Live Test CCTV Install - [timestamp]
6. Description: Need professional installation of 4 outdoor cameras with DVR setup.
7. Skills: CCTV Installation, Wiring, DVR Configuration
8. Pincode: 560001 → Select first post office option
9. Address: House: 1st Floor | Street: 123 MG Road | Landmark: Near City Mall
10. Budget: Min 8000 | Max 12000
11. Deadline: 7 days from today | Start Date: 30+ days from today

12. Check "I verify details" checkbox → Click "Post Job" → Confirm dialog → "Confirm & Save"
13.  **Expected:** Navigates to `/dashboard/jobs/JOB-XXXX` . Note the Job ID.

Phase 2 — Professional Places Bid

1. Logout → Login as **Professional** (`amit.pro@team4job.com`)
2. Navigate to `/dashboard/jobs/JOB-XXXX`
3. Verify job title matches
4. Click "Place Bid" button
5. Amount: `7500` | Cover Letter: `I have 5+ years of CCTV experience. 1-year warranty on installation.`
6. Click "Place Bid"
7.  **Expected:** Toast "Bid Placed!". Bid appears in My Bids section.

Phase 3 — Client Awards Job

1. Logout → Login as **Client**
2. Navigate to `/dashboard/jobs/JOB-XXXX`
3. Verify bid from `Amit Patel` is visible in bids list
4. Click "Send Offer" on the bid
5.  **Expected:** Toast "Offer Sent". Job status → `Pending Acceptance` .

Phase 4 — Professional Accepts Job

1. Logout → Login as **Professional**
2. Navigate to `/dashboard/jobs/JOB-XXXX`
3. If Schedule Conflict dialog appears → Click "I Understand, Proceed & Accept"
4. Click "Accept Job" button
5.  **Expected:** Toast "Job Accepted!". Status → `Pending Funding` .

Phase 5 — Client Funds Escrow

1. Logout → Login as **Client**
2. Navigate to `/dashboard/jobs/JOB-XXXX`
3. Click "Proceed to Payment"
4. Payment dialog opens → Enter card `4111 1111 1111 1111` , CVV `123` , Expiry `12/25`
5. Click "Pay Now"
6.  **Expected:** Toast "Payment Initiated" / "Payment Success". Status → `In Progress` . **Start OTP visible on page.**
7. Note down the OTP code shown.

Phase 6 — Professional Starts Work (OTP Entry)

1. Logout → Login as **Professional**
2. Navigate to `/dashboard/jobs/JOB-XXXX`
3. Enter OTP in "Enter Code" input field (from Client's view in Phase 5)
4. Click "Start" button
5.  **Expected:** Toast "Work Started". Status → `In Progress` .

Phase 7 — Professional Submits Completed Work

1. Still as **Professional**
2. Find "Completion Section" on job detail page
3. Upload a proof image (any `.png` file)
4. Verify file name appears in the upload list
5. Click "Submit for Review" button

6. **Expected:** Toast "Submitted for Confirmation". Status → Pending Confirmation .

Phase 8 — Client Approves & Releases Payment

- 1. Logout → Login as **Client**
- 2. Navigate to /dashboard/jobs/JOB-XXXX
- 3. If status not yet Pending Confirmation → Reload page
- 4. Click "Approve & Release" button
- 5. **Expected:** Toast "Job Approved & Payment Released!". Status → Completed .

Phase 9 — Invoice Generation

- 1. Still as **Client** on completed job page
- 2. Reload page to ensure invoice data propagated
- 3. Click "Download Invoice" button
- 4. **Expected:** New tab opens with PDF invoice. Contains "Billed To (Client):", GST details, Team4Job branding.
- 5. Click "Download Platform Receipt"
- 6. **Expected:** New tab/PDF with platform fee receipt.

Phase 10 — Reviews & Ratings (Simultaneous Blind Reveal)

- 1. Still as **Client** → Find "Rate Your Experience" section
- 2. Click 5-star rating → Enter Great Professional, highly recommended! → Click "Submit Review"
- 3. **Expected:** Toast "Review Submitted". Review Locked Card appears. Cannot edit.
- 4. Logout → Login as **Professional**
- 5. Navigate to /dashboard/jobs/JOB-XXXX
- 6. **Expected:** "The other party has already reviewed you" message visible.
- 7. Click 5-star rating → Enter Excellent client, clear requirements. → Click "Submit Review"
- 8. **Expected:** Both reviews revealed: "You Rated Them" + "They Rated You" sections visible.
- 9. Text from Client's review appears under "They Rated You" for Professional.

SECTION G: EDGE CASES & RARE SCENARIOS

G1 — Input Validation & Security

#	Test	Steps	Expected	Status
G1.1	XSS injection in job title	Post job. Title: <script>alert('XSS')</script>	Job posts but literal text shown. No JS alert popup.	☐
G1.2	Unicode/Emoji in title	Title: Install Cameras 🚀 🌈	Displays correctly in all views	☐
G1.3	SQL injection attempt	In any text field: '; DROP TABLE jobs; --	Handled safely. No crash	☐
G1.4	5000-char description	Paste A×5000 as description	Page and layout remain intact	☐
G1.5	Budget Min > Max	Min: 10000, Max: 5000	Error: "Maximum budget cannot be less than minimum budget"	☐

G1.6	Past deadline	Set deadline 2 days in the past	Error: "Deadline cannot be in the past"	☐
G1.7	Invalid pincode	Enter 000000	Error: "No records found" or "Invalid PIN code"	☐
G1.8	Special chars in title	Job #123 (CCTV) \$800!	Displays correctly in lists	☐
G1.9	File type rejection	Upload .exe file	Error: "File type must be one of..."	☐
G1.10	File size limit	Upload 20MB file	Error: "File too large" / "rejected"	☐

G2 — Workflow Edge Cases

#	Test	Steps	Expected	Status
G2.1	Buyer's remorse	Fund job → Immediately cancel before Pro starts	Refund process initiated. Status → Cancelled	☐
G2.2	Ghosting client (funding)	Pro accepts offer → Client does NOT fund for 48h	Job status → Expired Or Cancelled automatically	☐
G2.3	No-show Professional	Pro starts job → Goes silent for 48h	JG gets "Raise Dispute" or "Installer No-Show" alert	☐
G2.4	Bad photos / revision request	Client clicks "Request Revision"	Pro notified: "Revision Requested". Status remains In Progress	☐
G2.5	Cash offer off-platform	Client/Pro discusses cash deal → Report	Safety warning shown to reporter	☐
G2.6	Admin ban hammer	Admin bans manoj.suspended@team4job.com	"Access Denied – Account Suspended" on login	☐
G2.7	Identity fraud KYC	Upload cat image for ID proof	KYC Status → Rejected	☐
G2.8	Report a user	On profile → Click "Report" → Select reason	Confirmation toast. Admin record captured	☐
G2.9	Direct award flow	Post job with Direct Award enabled, enter Pro ID	Pro receives notification immediately. "Accept" button visible	☐
G2.10	Haggle up (bid > budget)	Budget ₹3000. Bid ₹4500. Award bid	Warning: "Bid exceeds budget". Option to proceed	☐

G3 — Network & Offline Scenarios

#	Test	Steps	Expected	Status
---	------	-------	----------	--------

G3.1	Disconnect during post	Fill job form → Disconnect → Click "Post"	Error: "Network error. Please check your connection."	☐
G3.2	Slow network (3G)	DevTools → Network → Slow 3G → Reload dashboard	Skeleton loaders show. Data loads eventually	☐
G3.3	API timeout	Throttle network severely → Attempt action	Timeout error toast shown. App doesn't crash	☐
G3.4	Reconnect recovery	Disconnect → Reconnect → Retry action	Action succeeds after reconnection	☐

G4 — Browser Navigation Edge Cases

#	Test	Steps	Expected	Status
G4.1	Back button after post	Post job → Navigate away → Click Back	Navigates to post-job page correctly	☐
G4.2	Form refresh persistence	Fill job form partially → F5 Refresh	"Resume draft?" dialog appears (if draft saved)	☐
G4.3	Multiple tabs	Login in Tab A. Open new tab → /dashboard	Session works in both tabs	☐
G4.4	Direct URL access (Pro on Client route)	Login as Pro → Navigate to /dashboard/posted-jobs	Either redirected or "Access denied" shown	☐
G4.5	Deep link to job	Share a job URL → Open in new incognito tab	Redirected to login, then forward to job after auth	☐

SECTION H: PERFORMANCE & DATA FETCH AUDIT

H1 — Core Web Vitals (Run Lighthouse)

Chrome DevTools → Lighthouse → Desktop + Mobile → Analyze

Metric	Threshold	Actual	Status
LCP (Largest Contentful Paint)	< 2.5s	—	☐
FID (First Input Delay)	< 100ms	—	☐
CLS (Cumulative Layout Shift)	< 0.1	—	☐
FCP (First Contentful Paint)	< 1.8s	—	☐
TTI (Time to Interactive)	< 3.8s	—	☐
Lighthouse Performance Score	> 80	—	☐
Accessibility Score	> 90	—	☐

SEO Score	> 90	—	☐
-----------	------	---	--------------------------

H2 — Page Load Times

Page	Steps	Threshold	Actual	Status
Homepage	Navigate to https://www.team4job.com	< 3s	—	☐
Login page	Navigate to /login	< 2s	—	☐
Dashboard (Client)	Login → Dashboard load	< 3s	—	☐
Browse Jobs (Pro)	Navigate to /dashboard/jobs	< 3s	—	☐
Job Detail	Click any job	< 2s	—	☐

H3 — Data Fetch Verification (Monitor Network Tab)

#	Test	What to Watch	Expected	Status
H3.1	Dashboard stats	Open Network tab → Load dashboard	Firestore calls succeed in < 3s	☐
H3.2	Job list fetch	Open Browse Jobs	Jobs load from Firestore. No 404/500	☐
H3.3	Job detail page	Click a job	Job document fetched in < 2s	☐
H3.4	Bid list real-time	Post a bid → Watch Client's page while NOT reloading	Bid appears on Client's page within 3-5 seconds (real-time listener)	☐
H3.5	Status change real-time	Client awards job → Watch Pro's page	Status changes within 5s on Pro's page	☐
H3.6	Payment status update	Fund job → Watch Pro's view	Status updates to In Progress without refresh	☐
H3.7	Notification delivery	Any action → Watch bell icon	Bell badge increments within 5s	☐
H3.8	Skeleton loaders	Throttle to 3G → Reload	Skeleton placeholders show before content	☐
H3.9	Invoice fetch	Navigate to completed job	Invoice buttons appear within 3s after completion	☐
H3.10	Admin audit log	Admin actions → View audit log	New entries appear within 30s	☐

SECTION I: DATA SYNC AUDIT BY ROLE

This section defines **what should sync in real-time vs. what can have a delay**, differentiated per user role.

Real-Time Sync Requirements (< 5 seconds, onSnapshot listeners)

These must update instantly without page reload:

#	Event	Who Sees It	Sync Method	Tolerated Delay
11	New bid placed on job	Client (Job Giver)	Firestore onSnapshot	≤ 5s
12	Offer sent to Professional	Professional	Firestore onSnapshot	≤ 5s
13	Job status change	Both Client & Pro	Firestore onSnapshot	≤ 5s
14	OTP start code generation	Client only (shown to them)	Firestore onSnapshot	≤ 3s
15	Work submitted by Pro	Client (approve/reject prompt)	Firestore onSnapshot	≤ 5s
16	Approval & payment release	Professional (earnings update)	Firestore onSnapshot	≤ 5s
17	Dispute raised	Admin	Firestore onSnapshot	≤ 5s
18	Chat message sent	All parties in job chat	Firestore onSnapshot	≤ 2s
19	Notification bell update	All users	Firestore onSnapshot	≤ 5s
110	Review submitted (reveals both)	Both Client & Pro	Firestore onSnapshot	≤ 5s

Time-Gap / Eventual Consistency OK (30s–5min acceptable)

These are triggered by background functions or complex operations:

#	Event	Who Sees It	Why Delay OK	Tolerated Delay
111	Invoice generation after completion	Client & Pro	PDF render is async server-side	≤ 60s
112	Audit log entries	Admin only	Non-critical logging	≤ 30s
113	Platform fee calculation	Admin financials	Background aggregation	≤ 2min
114	KYC verification status	Professional	External KYC service check	≤ 5min
115	Payout processed to bank	Professional	Bank settlement cycle	1–3 days

116	Email notification sent	All users	Email service queue	≤ 2min
117	Analytics dashboard metrics	Admin only	Aggregated batch job	≤ 5min
118	Search index update for new jobs	Browse Jobs page	Firestore → search index sync	≤ 30s

How to Test Sync (Live Test Steps)

Real-Time Test Procedure:

1. Open two browser windows side by side:
 - Window A: Logged in as **Client**
 - Window B: Logged in as **Professional**
2. In Window B (Pro): Place a bid on a job
3. Watch Window A (Client): Bid count should increment within **5 seconds** WITHOUT refresh
4. In Window A (Client): Click "Send Offer"
5. Watch Window B (Pro): Status badge should update to "Pending Acceptance" within **5 seconds**
6. Continue through all 10 phases, watching both windows

Sync Failure Indicators (BUGS to report):

- ❌ Bid appears on Client's page only after manual refresh
- ❌ Status change requires reload on the other user's view
- ❌ Notification bell doesn't update without refresh
- ❌ Chat messages don't appear instantly
- ❌ Invoice button doesn't appear for >2 minutes after completion

SECTION J: RESPONSIVENESS & DEVICE TESTING

J1 — Breakpoint Verification

Use Chrome DevTools → Toggle Device Toolbar (Ctrl+Shift+M)

Device	Resolution	Test	Expected	Status
Desktop	1920×1080	Full page layout	All columns visible, no overflow	☐
Desktop	1280×897	Standard laptop	Layout intact	☐
Tablet	768×1024	iPad portrait	Sidebar collapses or adapts	☐
Mobile	390×844	iPhone 12	Hamburger menu, stacked layout	☐
Mobile	360×800	Galaxy S20	Hamburger menu, stacked layout	☐
Mobile	375×667	iPhone SE	Smallest mobile — no overflow	☐

J2 — Mobile-Specific Tests

#	Test	Steps	Expected	Status
J2.1	Hamburger menu	Mobile: Check top nav	3-bar icon visible. Click opens drawer menu	☐

J2.2	No horizontal scroll	Mobile: Swipe left/right on any page	NO horizontal scroll (no viewport overflow)	☐
J2.3	Touch targets	Mobile: Tap buttons and tabs	Easy to tap. No adjacent item accidentally triggered	☐
J2.4	Sticky CTA buttons	Mobile: Scroll down on job detail	"Place Bid" / "Fund Job" button stays accessible	☐
J2.5	Form usability	Mobile: Fill "Post Job" form	Keyboard doesn't obscure input. Fields scrollable	☐
J2.6	File upload (mobile)	Mobile: Upload photo in completion form	Camera option appears. Upload works	☐
J2.7	Skeleton loaders (mobile)	Mobile + 3G: Reload any page	Skeleton placeholders shown before content	☐

J3 — Cross-Browser

Browser	Homepage	Login	Dashboard	Job Flow	Status
Chrome (latest)	☐	☐	☐	☐	☐
Firefox (latest)	☐	☐	☐	☐	☐
Safari (latest)	☐	☐	☐	☐	☐
Edge (latest)	☐	☐	☐	☐	☐

SECTION K: SECURITY & ACCESSIBILITY

K1 — Security Checks

#	Test	Steps	Expected	Status
K1.1	HTTPS enforced	Navigate to http://team4job.com	Auto-redirected to https://	☐
K1.2	No sensitive data in URL	Login → Inspect URL bar	No tokens, passwords, or user IDs in URL	☐
K1.3	Console no secrets	Login → Check Console tab	No API keys, Firebase credentials, or JWT tokens logged	☐
K1.4	Role isolation (Pro → Admin route)	Login as Pro → Navigate to /dashboard/admin	Redirected or "Access Denied"	☐
K1.5	Role isolation (Client → Pro route)	Login as Client → Navigate to /dashboard/jobs/browse	Either blocked or read-only view	☐
K1.6	CSRF protection	Inspect POST requests	CSRF token or same-site cookie present	☐

K1.7	XSS not executable	Submit <code><script>alert(1)</script></code> in any field	Script not executed. Displayed as literal text	☐
K1.8	Firestore rules enforced	Try fetching another user's private data via devtools fetch	403 Forbidden	☐
K1.9	Invoice URL access	Copy invoice URL → Open in incognito	Blocked (requires auth) or only accessible to authorized users	☐

K2 — Accessibility (A11y)

#	Test	Steps	Expected	Status
K2.1	Keyboard navigation	Tab through any page	All interactive elements reachable by keyboard	☐
K2.2	Focus indicators	Tab through page	Visible focus ring on focused elements	☐
K2.3	ARIA labels	Inspect buttons/icons	Buttons have <code>aria-label</code> or descriptive text	☐
K2.4	Color contrast	Run Lighthouse Accessibility	Score > 90. No "insufficient contrast" failures	☐
K2.5	Error messages accessibility	Submit invalid form	Error messages are associated with inputs via <code>aria-describedby</code>	☐
K2.6	Image alt text	Inspect all <code></code> tags	All images have non-empty <code>alt</code> attributes	☐
K2.7	Screen reader (VoiceOver/NVDA)	Enable screen reader → Navigate	Page structure read correctly	☐

MASTER SIGN-OFF CHECKLIST

Critical Path (Must all pass before sign-off)

- ☐ Homepage loads in < 3s with no console errors
- ☐ Login works for all 3 roles (Client, Professional, Admin)
- ☐ Unauthenticated users redirected to `/login`
- ☐ Full 10-phase transaction cycle completes successfully
- ☐ Payment processing works (success card accepted, declined card rejected)
- ☐ Invoice generated and downloadable after job completion
- ☐ Review system: both blind submit → simultaneous reveal
- ☐ Real-time bid sync: Client sees new bid within 5s (no refresh)
- ☐ Real-time status sync: both parties see job status change within 5s
- ☐ Dispute flow: raises dispute → admin notified → resolve works
- ☐ Admin can suspend a user and suspended user cannot login
- ☐ KYC prevents bidding for unverified Professionals

- ☐ XSS injection in title does not execute JavaScript
- ☐ Mobile layout has no horizontal overflow (no scroll drift)

Performance Gate

- ☐ Lighthouse Performance score > 80 (Desktop)
- ☐ Lighthouse Performance score > 70 (Mobile)
- ☐ All pages load in < 3 seconds on stable connection
- ☐ Skeleton loaders visible on 3G simulated connection

Data Integrity

- ☐ All job IDs are unique (format: JOB-XXXX)
- ☐ Earnings = Job Amount – Platform Commission (no rounding errors)
- ☐ Admin refund updates Client wallet balance exactly
- ☐ Review data persists after page reload (no race condition)

Security Gate

- ☐ HTTPS enforced
- ☐ No credentials in console or network logs
- ☐ Role boundaries enforced (Pro cannot access Admin routes)
- ☐ Firestore rules block cross-user data access

TEST EXECUTION LOG

Section	Tester	Date	Pass	Fail	Notes
A — Public Pages					
B — Authentication					
C — Client Flow					
D — Professional Flow					
E — Admin Flow					
F — Transaction Cycle					
G — Edge Cases					
H — Performance					
I — Data Sync					
J — Responsiveness					
K — Security/A11y					

FINAL SIGN-OFF
